### *Description:*

#### *Abstract:*

This data set is a polygon shapefile representing Wisconsin DNR Deer Management Units (DMUs). Deer hunting regulations may vary by DMU; users should consult the most recent Hunting Regulations Handbook to determine which regulations apply to which units. The DNR generally revises DMUs every 1-3 years. In Spring of 2003 DMUs were altered to note which DMUs are within a CWD management area. This is noted in the DMU\_Id, by listing the DMU-Id, then "-CWD" if the DMU is within a CWD management area. The current version of DMU boundaries reflects updates made through April, 2006.

#### *Purpose:*

The DMU data set includes a "DEER\_MGMT\_" identifier which enables linkage to a variety of DMU-related information contained in DNR tabular databases. This data set is intended for use with ArcView, ArcInfo, or other GIS software which support shapefile format.
